6. Chatted with Kenneth Mansfield, Staff Director, Subcommittee on National Policy Machinery of Senate Committee on Government Operations and thanked him very much for sending me an advance copy of the October 1959 memorandum by the Subcommittee. He stated this was the same document which was referred to in THE WASHINGTON POST item of 3 October. He asked how we were coming along in our studies for the Subcommittee. I indicated that progress seems very good and we would be in touch in the near future.

7. Met with Dorothy Fordick and she indicated that Senator Henry M. Jackson (D., Wash.) had not gotten any further word on his trip to Russia and, consequently, had decided to go to the Antarctic and had already left.

8. Left with Walter Reynolds, Senate Committee on Government Operations staff, a copy of the Report by the Committee on Exploitation of Foreign Language Publications to the United States Intelligence Board. Mr. Reynolds was most appreciative since he has worked on this problem over the years with John Green in Commerce.

9. Left a copy of the Report by the Committee on Exploitation of Foreign Language Publications to the United States Intelligence Board with the Senate Aeronautical and Space Sciences Committee for Max Lehrer and Kenneth Be Lien.
